EXPERIENCE

Eli Lilly and Company Nov 2023 - Aug 2025
Associate Consultant - Connected Medicine Bengaluru, India

- Built and scaled reporting pipelines for Zepbound (Lilly Health) & Diabetes (Tempo), processing **10M+** patient records across **150+** tables on AWS (S3, Glue, Redshift); reduced manual ops by **40%**
- Created a reliable **CI/CD pipeline** using GitHub Actions along with a flexible, config-driven **Python framework**, enabling the automated build, daily updates, and auditing of warehouse transactional tables
- Led the team of developers by vendor and cross-functional stakeholders to translate business requirements into technical specifications, oversee development, perform UAT, and communicate delivery outcomes
- Engineered a production RAG pipeline using LangChain and Pinecone with hybrid retrieval and reranking, improving retrieval accuracy by **25%** over a baseline BM25 implementation
- Designed and deployed **10+** AI guardrail layers including input/output validation, topic classification, and PII detection, reducing out-of-policy LLM responses by **95%** in enterprise-facing workflows

Dish Network Technologies (EchoStar Corporation, NASDAQ: SATS) Sept 2022 – Oct 2023
Engineer I - Manufacturing & Distribution (MD) Bengaluru, India

- Developed an automated data validation module and orchestrated ETL workflows using AWS Glue and Airflow, improving data freshness, reliability, and reporting confidence
- Modernized **20+** warehouse and supply chain reports for El Paso and Denver operations using Python and SQL, improving reporting efficiency by approximately **20%**

Cognizant Technology Solutions Aug 2021 – Sept 2022
Programmer Analyst - Data Engineering Remote

- Modeled star-schema fact and dimension tables to support scalable BI and analytics use cases, applying SQL, PySpark, and data warehousing best practices in Snowflake
- Reviewed production-ready code for correctness, maintainability, and reliability, highlighting quality issues and improvement opportunities for the engineering team

TECHNICAL SKILLS

Programming: Python, SQL, PySpark, Javascript

Generative AI: LangChain, LangGraph, RAG, MCP, OpenAI API, Streamlit, FAISS, Pinecone

Cloud & Data Engineering: AWS (S3, Lambda, Glue, Redshift, Athena), Snowflake, Airflow, Kafka, FastAPI

ML & Analytics: PyTorch, Pandas, NumPy

Tools: Git, GitHub, GitHub Actions, Docker, Kubernetes, JIRA, Postman, Tableau, Power BI

EDUCATION

University of Limerick (Ireland) Sept 2025 – Aug 2026
Master of Engineering, Artificial Intelligence and Computer Vision Current GPA: 3.52/4 (1:1)

Panjab University (Chandigarh, India) 2017 – 2021
Bachelor of Engineering, Computer Science and Engineering GPA: **1:1 Honours**

RECOGNITIONS & ACHIEVEMENTS

Eli Lilly and Company

- Lilly Rise Award (Q1 2024) – Teamwork & Innovation in data infrastructure
- Lilly Rise Award (Q4 2024) – Exceptional productivity & delivery
